

Since 2009 16 churches and 37 people from the Piedmont Okefenokee Baptist Association have participated in the **Step Up** partnership in addition to 7 people from a church in our neighboring association to share the gospel with the unreached Quichua of the Imbabura Province of Ecuador. A total of 19 villages and towns have been prayerwalked and where Bibles have been distributed. A pastor's conference was conducted in 2009 providing training to 10 Ecuadorian pastors. In 2013 Christian leadership training was offered to 23 believers while 11 children participated in a backyard Bible club. God has used the Piedmont Okefenokee association as a catalyst in initiating worship services in two villages and Bible studies in 6 additional villages. We worked with three local pastors who understand the need for planting indigenous churches among the 300,000 Quichua in the Imbabura Province.
